Task at technical seminars

Deliverable **WP9.D4**

PARTICIPANT ID: Ambiente Italia

PARTICIPANT SHORT NAME: AI

COUNTRY: Italy DATE: may 2008

1. PURPOSE

The purpose of this document is to describe the dissemination actions to promote the result of Ener In Town Project.

The 15 may 2008 inside Green Building¹, that is the most important exhibition in Italy for sustainable architecture and energy efficiency, Ambiente Italia organized the seminars: “Public Buildings towards Energy Efficiency”.

The first part of the seminars was dedicated to the technical aspects of building Energy Audit and in the second one were presented some real experience such as the one of the Province of Rome.

Patrizia Prignani, the Energy Manager of the provincial administration of Rome, talked about the management of public school and of the monitoring system installed during Ener In Town.
